Professional Summary

Motivated frontend developer focused on building responsive, accessible, and high-performance web applications. I develop practical projects with React, Next.js, TypeScript, JavaScript, Tailwind CSS, Express.js, and MongoDB while continuously improving through independent practice and the Programming Hero learning journey.

Technical Skills

Front-End	Next.js, React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, DaisyUI, HeroUI
Back-End	Node.js, Express.js, MongoDB
Tools	GitHub, Vercel, Visual Studio Code, Antigravity
Soft Skills	Communication, public speaking, problem-solving, teamwork, continuous learning

Selected Projects

Bank Loan Calculator

FRONTEND WEB APPLICATION

Interactive loan planning platform for estimating monthly payments from loan amount, interest rate, and repayment duration.

- Instant monthly payment estimates with interactive controls
- Responsive financial data visualization and accessible UI

Technologies: React.js, Material UI, Emotion, Styled Components, Chart.js, Tailwind CSS

Tile Gallery

FULL-STACK WEB APPLICATION

Tile discovery and collection platform where users can browse products, view details, save favorites, and manage personal collections.

- User profiles, personal collections, likes, and favorites
- Email-password and Google authentication

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Additional Project

DigiTools

FRONTEND WEB APPLICATION

AI tool subscription interface designed to improve discovery and access to modern productivity tools.

- Responsive subscription-focused interface
- Clear tool discovery and modern card-based experience

Technologies: React.js, Tailwind CSS, API integration

Independent Development Experience

I build and improve practical web projects through independent development and structured coursework. My work focuses on user-friendly interfaces, responsive layouts, authentication flows, API integration, and maintainable frontend architecture.

- Translate design ideas into responsive interfaces for mobile, tablet, and desktop
- Build reusable React and Next.js components with TypeScript
- Integrate APIs, authentication, and database-backed features
- Deploy and maintain projects using GitHub and Vercel

Education

Secondary Education - Class 9

Cauliflower English High School
Farmgate, Dhaka, near Holy Cross
[Currently studying](#)

Qawmi Education - Kafia Level

Jaharpur Al-Fatah Darul Ulum Qawmi Madrasa
Jaharpur, Barpara, Bandar, Narayanganj
[Currently studying](#)

Courses and Professional Profiles

Programming Hero Level 1

Batch 13 - Currently running

GitHub: github.com/tamimhasanbd06

LinkedIn: [tamim-hasan-th018836](#)

Presentation and Public Speaking

10 Minute School - Online

Availability: Open to meaningful opportunities

Career Goal

My goal is to become a full-stack engineer and contribute to meaningful digital products that combine thoughtful design, reliable engineering, and intelligent technology.
